Hilltop Diving, an adaptive scuba-diving facility in Schwenksville, recently trained a group of amputees how to scuba dive in Shillington.

Ten members of Amputees on the Move, an organization that encourages its members not to limit themselves, were trained by Hilltop Diving volunteers and a water rescue team from Berks County. The training was held in the indoor pool at The Heritage of Green Hills, a healthy living community that has hosted several meetings of Amputees on the Move.

The Heritage of Green Hills is located in Shillington, Berks County.
